

CHANDRA PRAKASH KUMAR

WEB DEVELOPER

SUMMARY

Creative Frontend Developer skilled in turning ideas into interactive, visually appealing web interfaces. Experienced in real-world projects, problem-solving, and optimizing application performance.

My Goal is to achieve high career growth through a continuous learning process and keep myself dynamic, visionary and competitive with the changing scenario of the world.

EXPERIENCE

Innoblooms Info Service Pvt. Ltd.

Noida, India

Frontend Developer

11/2024 - Present

A company focused on IT services including web development

- Developed dynamic website using modern frameworks and best coding practices.
- I am working full-time in this role, where I have contributed to multiple real-world projects.
- Through this experience, I have strengthened my problem-solving and debugging skills, enhanced code quality, and gained hands-on expertise in building efficient solutions.

AcadLog Pvt. Ltd.

Patna, India

Web Development Training

07/2023 - 12/2023

AcadLog Pvt. Ltd. is an online job portal designed to connect job seekers with government and private job openings.

- A job search platform providing listings for government and private opportunities.
- This experience helped me strengthen my technical and problem solving skills.

PROJECTS

DHA

07/2025 - 09/2025

Innoblooms Info Service Pvt. Ltd.

Developed user dashboard

- DHA is a doctor management and license verification platform developed using Next.js, Tailwind CSS, and TypeScript. The system verifies doctors' licenses under a main branch and supports appointment scheduling. It features two dashboards — one for the admin and one for the staff. I built the staff dashboard and implemented multi-language support, translating the interface from English to Arabic. This project strengthened my skills in UI development, localization, and frontend architecture.

MAXOVERSEAS

01/2025 - 02/2025

Innoblooms Info Service Pvt. Ltd.

Developed a user-friendly import-export website to enhance accessibility and client interaction.

- Developed and maintained the MaxOverseas website to showcase global import and export services and product offerings.
- Implemented a **user-friendly, responsive interface** to enhance client engagement and improve accessibility to trade-related information.

IB JOBS

03/2025 - 06/2025

Innoblooms Info Service Pvt. Ltd.

Nextjs Job finding application designed to find jobs and upload too.

- IB JOBS is a job posting and job search platform developed using Next.js and CSS to deliver a smooth, responsive user experience. It enables recruiters to post openings and job seekers to find and apply for opportunities, similar to platforms like Naukri.com. The project emphasizes a clean UI, intuitive navigation, and real-time job listings. Through this project, I strengthened my skills in frontend development, state management, and UI design.
